

Florence P. Tubosa

Software Developer | Full-Stack Developer

Zamboanga City, Philippines

Portfolio: <https://florence008.github.io/>

Email: florencetubosa8@gmail.com | Contact: 09755905495 |

PROFESSIONAL SUMMARY

Software Developer experienced in building and deploying business systems. Skilled in technical development, system maintenance, production troubleshooting, and administrative work. Strong understanding of business workflows, reporting, and data accuracy, supported by an administrative background and Civil Service eligibility. I value practical solutions, reliability, and continuous learning in my work.

EDUCATION

Bachelor of Science in Computer Science

Western Mindanao State University | 2019 – 2023

Technical Vocational – Caregiving

Universal College of Southeast Asia and the Pacific | 2017 – 2019

PROFESSIONAL EXPERIENCE

Senior Developer

Sun Gate Pawnshop, Inc. | Apr 2024 – Present

- Delivered internal business systems that improved workflows for payroll, accounting, reporting, and analytics.
 - Developed full-stack applications integrating user-friendly UI/UX, backend APIs, and MySQL databases.
 - Strengthened system security and reliability by implementing secure authentication and improving error handling.
 - Managed live deployment and maintenance on Hostinger VPS, including SSL/domain configuration and server monitoring.
 - Resolved production issues efficiently, including email delivery failures, login/auth bugs, database query errors, and performance bottlenecks.
 - Handled complete SDLC: analysis, coding, testing, deployment, and documentation
-

Administrative Officer

Figaro Coffee | Jun 2023 – Mar 2024

- Handled multi-functional responsibilities across Finance, HR, Operations, Compliance, Cashiering, and Marketing support.
 - Managed cash flow, bank deposits, petty cash, and daily reconciliation between POS records and manual notes.
 - Processed purchase orders end-to-end (creation, supplier coordination, payment, and tracking).
 - Prepared payroll using biometrics/timekeeping records and managed employee documentation (memos, IR, records).
 - Processed government compliance requirements (SSS, Pag-IBIG, PhilHealth) for both shop and employees.
 - Managed Food panda and digital payment channels (GCash, bank transfers, QR payments) and supported marketing campaigns/ads.
 - Coordinated social media campaigns and marketing materials.
-

Sales Clerk (Working Student)

KCC Mall de Zamboanga | Jul 2022 – Nov 2022

- Assisted customers, promoted products, and maintained organized merchandise displays.
 - Supported stock replenishment and inventory monitoring.
-

Cashier (Working Student)

Yubenco Supermarket | Jun 2019 – Aug 2019

- Processed transactions and balanced end-of-day cash reports accurately.
 - Delivered fast and courteous customer service at checkout counters.
-

CERTIFICATIONS & TRAINING

 - Database: MySQL
 - Web Development: Full-stack development, UI/UX design, dashboards & reporting
 - Deployment & Hosting: VPS (Hostinger), SSL configuration, FTP, domain setup
 - Tools: GitHub, Visual Studio, MySQL Workbench, XAMPP, phpMyAdmin
 - Business Tools: Payroll, Inventory, Purchase Order Management
 - Compliance & Government Processing: SSS, Pag-IBIG, PhilHealth
-

SOFT SKILLS

Problem-Solving • Analytical Thinking • Communication • Time Management • Organizational Skills • Multi-tasking

PROJECT HIGHLIGHTS

Know your Customer CRM Web App (Python Flask + MySQL + VPS)

- Web-based customer management system with CRUD features and secure deployment.

Customer Concerns & Resolution System (Node.js + MySQL)

- Complaint tracking system with follow-up monitoring and resolution status.

Payroll & Labor Cost Allocation System (VB.NET + MySQL)

- Salary computation system with branch/department cost allocation and cut-off-based reporting.

Marketing Analytics Dashboard (VB.NET + MySQL)

- Dashboard for transaction trends, customer demographics, and performance monitoring.

Jewelry POS Inventory System (VB.NET + Scanner Integration)

- Barcode-supported inventory tracking with sales reports for auction jewelry operations.

Centralized Inventory & Accounting System

- Multi-branch supply monitoring with check-in/check-out tracking.

HR Employee System

- Employee records including training history, separation, salary adjustment, and regularization tracking.

TOOLS & PLATFORMS

- Development: Visual Studio, GitHub, MySQL Workbench, XAMPP, phpMyAdmin
- Deployment: Hostinger VPS, SSL setup, FTP, domain configuration
- Design: Canva, Photoshop (Basic)
- Communication: Email, Facebook, Messenger
