

FLORENCE P. TUBOSA

Software Developer | Full-Stack Developer

Zamboanga City, Philippines

Email: florencetubosa8@email.com

Phone: 09755905495

Portfolio: <https://florence008.github.io>

PROFESSIONAL SUMMARY

Full-Stack Software Developer experienced in designing, building, and deploying business systems used in real operational environments. Skilled in UX Design, VB.NET, Python, Node.js, JavaScript, and MySQL with hands-on experience in full software lifecycle development including system design, database management, and VPS deployment. Proven ability to translate business workflows into reliable software solutions that improve operational efficiency, reporting accuracy, and internal processes.

EDUCATION

Bachelor of Science in Computer Science

Western Mindanao State University | 2019 – 2023

Technical Vocational – Caregiving

Universal College of Southeast Asia and the Pacific | 2017 – 2019

PROFESSIONAL EXPERIENCE

Software Developer

Sun Gate Pawnshop, Inc. | April 2024 – Present

- Developed and deployed desktop and web-based business systems using VB.NET, Python Flask, Node.js, and MySQL.
- Designed database structures and backend logic to support reporting, payroll computation, and operational workflows.
- Implemented secure authentication mechanisms and improved error handling to strengthen system reliability.
- Managed the complete software development lifecycle including requirement gathering, system design, development, testing, and deployment.
- Deployed applications to VPS environments including domain configuration and SSL setup.
- Built internal tools used by multiple departments to improve operational efficiency and reporting accuracy.

Administrative Officer

Figaro Coffee | June 2023 – March 2024

- Managed operational support across Finance, HR, Compliance, Marketing, and Cashiering.
- Handled cash flow monitoring, bank deposits, petty cash management, and daily POS reconciliation.
- Processed purchase orders including supplier coordination, payment tracking, and delivery monitoring.
- Prepared payroll using biometric timekeeping systems and managed employee documentation.
- Processed government compliance requirements including SSS, Pag-IBIG, and PhilHealth.
- Managed digital payment channels including GCash, QR payments, and bank transfers.
- Supported marketing campaigns and coordinated social media promotional activities.

Sales Clerk (Working Student)

KCC Mall de Zamboanga | July 2022 – November 2022

- Assisted customers and promoted products while maintaining organized merchandise displays.

Cashier (Working Student)

Yubenco Supermarket | June 2019 – August 2019

- Processed customer transactions accurately and balanced end-of-day cash reports.
- Delivered efficient and courteous customer service at checkout counters.

TECHNICAL SKILLS

Programming Languages: VB.NET, Python, Node.js, C#, JavaScript

Web Development: HTML, CSS, Tailwind, React

Database: MySQL, MySQL Workbench, phpMyAdmin, DBeaver

Deployment & Infrastructure: VPS Deployment (Hostinger), SSL Configuration, FTP, Domain Setup

Development Tools: Visual Studio, Git, GitHub, XAMPP

Design & Collaboration: Figma, WordPress, Canva, Photoshop, Git

Business Systems Knowledge

Payroll Systems, Inventory Systems, CRM Development, Financial Tracking, Reporting Systems

PROJECT HIGHLIGHTS

Know Your Customer (KYC) CRM Web Application

Python Flask | MySQL | VPS Deployment

- Developed a web-based customer management system with CRUD functionality and database-driven records.
- Implemented secure deployment and data management for internal operational use.

Customer Concerns & Resolution System

Node.js | MySQL

- Built a complaint tracking system to monitor customer issues, follow-ups, and resolution status.
- Implemented database-based reporting for management oversight.

Payroll & Labor Cost Allocation System

VB.NET | MySQL

- Developed a payroll computation system with labor cost allocation across branches and departments.
- Implemented cut-off-based reporting and salary calculations.

Marketing Analytics System

VB.NET | MySQL

- Designed a dashboard to visualize transaction trends, customer demographics, and performance indicators.

Jewelry POS Inventory System

VB.NET | Barcode Scanner Integration

- Created a barcode-based inventory tracking system with sales reporting functionality for jewelry operations.

Centralized Accounting Inventory System

- Developed a multi-branch inventory monitoring system with check-in and check-out tracking.
-

CERTIFICATIONS

Civil Service Professional Eligibility

Google UX Design Certificate

Google IT Automation with Python (In Progress)

Project SPARTA – Data Analytics Training

- Data Management Fundamentals
- Getting Grounded on Analytics
- Applied Analytics in Public Finance & Budgeting
- Excel for Data Preparation & Analysis
- Designing and Building Data Products
- SQL for Business Users

TESDA Online

- Workplace Communication

SOFT SKILLS

Problem Solving | Analytical Thinking | Communication | Time Management | Organization | Documentation | Multi-tasking | Business workflow analysis | System design & documentation | Cross-department collaboration | Process automation
